## **DETAILED ACTION**

### ***Response to Amendment***

Claims 1-10, 16-29, and 38-58 are pending in the present application.

### ***Response to Arguments***

Applicant's arguments filed July 12, 2001 have been fully considered but they are not persuasive. As addressed below, Ginter et al. anticipated the amendment.

Ginter teaches a display step of displaying a process function when he discloses " VDE functions and other operating system functions that are aware of each others" (**col. 4, lines 47-67; col. 5, lines 1-48; col. 9, lines 3-32; fig. 1, 8, and 11a-11c**). In figures 8 and 11, Ginter discloses the awareness of the process functions of each other. The information in the application is displayed thus makes the process function aware of other process or of os function.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2672

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. This maintains the rejection of the prior action which is hereby incorporated by reference.
3. Claims 27-29 and 38-56 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ginter et al. (US patent no. 5,982,891).
4. The limitations of claims 57-58 are analyzed as discussed with respect to claims 27-29 and 38-56 above (also please see paper number 5).

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
